

Scenic Paradise Mix

Paradise food is a little "ball" about 1/4 inch in diameter.

The food is designed for the medium size parrots like Conures. The Paradise Food and Jungle Food are real popular when mixed together, This adds interest to your birds food dish. The food is available in four flavors: Red Apple, Corn, Cheese, Chili Spice and Mixed Paradise (all four flavors).

Packaging:

- 2 lb. poly bag (0,91 kg)
- 25 lb bag (11,34 kg)

- The first and only bird food formulated to be fed along with fruits and vegetables, even seeds.
- The first and only all natural bird food with controlled iron, iodine, and copper levels.
- The first and only bird food presented to, and reviewed by, the scientific community.
- The first and only bird food entirely based upon scientifically published research and field tests.
- The first and only bird food to use all natural colors and flavors like corn, apple, cheese and chili spice.

Paradise Food and Jungle Food are popular with birds when mixed together.

Feeding Directions

Scenic Bird foods can be fed alone or mixed with other foods, like fruit and vegetables. If mixed with these other foods, Scenic Bird foods should be more than half your birds total food consumption measured by volume. Ask your dealer for easy ways to feed Scenic Bird food to your birds.

Guaranteed Analysis

Crude Protein	20.0 % minimum

Ash	6.0 % maximum

Ingredients

Yellow corn, soybean meal, corn gluten meal, corn hominy, dehydrated alfalfa meal, apple fiber, sucrose, soybean oil, dicalcium phosphate, calcium carbonate, sodium chloride, L-lysine, propionic acid, vitamin C 2-polyphosphate, choline chloride, zinc oxide, ferrous sulfate, manganous oxide, nicotinic acid, d-calcium pantothenate, copper sulfate, menadione dimethylpyrimidinol bisulfite (vitamin K), riboflavin supplement, thiamin mononitrate, ethylenediamine dihydriodide, sodium selenite, biotin, folic acid, pyridoxine HCL (vitamin B-6), cyanocobalamin (vitamin B-12), stabilized retinyl palmitate (vitamin A), D-activated animal sterol (vitamin D-3), dl-alpha tocopheryl acetate (vitamin E) natural colors and natural flavors.

Dry Matter Basis

For professional caregivers, nutritionists and other scientists, we have converted our "Formulation Values" to a Dry Matter Basis (DMB) to assist in planning feeding protocols. In the case of vitamins, assay and actual values will be lower depending on processing, storage, distribution and age. Please contact the company for advice on these assays and their resulting values.

Nutrient	Conc. (DM basis)	(As-fed basis)
Dry matter, %	100.0	91.2
Crude protein, %	24.6	22.4
Lysine, %	1.16	1.06
Methionine, %	0.46	0.42
Cystine, %	0.41	0.37
