

## Tropical Bits

Tropical Bits is a mixture of colors and flavors in a small crumble size. It is our smallest size product. It is fed to Finches, Canaries and other soft billed birds. It is also fed to larger hook bills when mixed with their fruits and vegetables. It also "soaks-up" well and makes excellent fruit and vegetable "stews" for stubborn birds who won't eat pellets or extrusions.

### Packaging:

- 2 lb. Poly bag (0,91 kg)
- 25 lb. Bag (11,3 kg)

- The first and only all natural bird food with controlled iron, iodine, and copper levels.
- The first and only bird food presented to, and reviewed by, the scientific community.
- The first and only bird food entirely based upon scientifically published research and field tests.
- The first and only bird food to use all natural colors and flavors like corn, apple, cheese and chili spice.
- A food the size and shape of miniaturized grains about 1¼16 inch (1 mm) diameter.

Tropical Bits may be feed to smaller birds like finches and canaries as well as love birds, cockatiels, rosellas, and lories.

## Feeding Directions

Tropical Bits can be feed alone or mixed with other foods like fruits and vegetables. This food can also be fed to birds on liquid diets by adding fruit juice, honey, or water. If mixed with these other foods, Tropical Bits should be more than half of your birds total food consumption measured by volume. Ask your dealer for easy ways to feed Tropical Bits to your birds.

## Guaranteed Analysis

Crude Protein	20.0 % minimum
Crude Fat	4.0 % minimum
Crude Fiber	5.0 % maximum
Moisture	10.0 % maximum
Ash	6.0 % maximum
Iron	80 ppm minimum
Iron	150 ppm maximum

## Ingredients

Yellow corn, soybean meal, corn gluten meal, corn hominy, dehydrated alfalfa meal, apple fiber, sucrose, soybean oil, dicalcium phosphate, calcium carbonate, sodium chloride, L-lysine, propionic acid, vitamin C 2-polyphosphate, choline chloride, zinc oxide, ferrous sulfate, manganous oxide, nicotinic acid, d-calcium pantothenate, copper sulfate, menadione dimethylpyrimidinol bisulfite (vitamin K), riboflavin supplement, thiamin mononitrate, ethylenediamine dihydriodide, sodium selenite, biotin, folic acid, pyridoxine HCL (vitamin B-6), cyanocobalamin (vitamin B-12), stabilized retinyl palmitate (vitamin A), D-activated animal sterol (vitamin D-3), dl-alpha tocopheryl acetate (vitamin E) natural colors and natural flavors.

## Dry Matter Basis

For professional caregivers, nutritionists and other scientists, we have converted our "formulation values" to a Dry Matter Basis (DMB) to assist in planning feeding protocols.

<b>Nutrient</b>	<b>Level, DMB</b>
Crude Protein	24.0% min.
Lysine	1.20% min.
Methionine	0.50% min.
Methionine + Cystine	0.90% min.
