

Ultimate Balance

Egg food-Premium

Product: **Ultimate Balance Egg food - Premium**

Productvorm: Ultimate Balance Egg food Premium is an important part of a bird's diet, especially if live food is not on the menu. It provides the much-needed protein that is frequently lacking in the diet of birds in captivity. Egg food is another way of getting much needed protein into your birds, especially important if you plan on breeding. A bird's seed diet doesn't contain all the necessary vitamins, minerals, amino acids, and other important nutrients it needs during the breeding season or stressful periods like moulting. The valuable animal proteins and trace elements in this special food will keep your bird in optimum condition and strength from their first breeding, moulting and onward into a healthy life. Ultimate Balance Egg food Premium is a broadly based soft egg food, blended with the finest quality ingredients including real egg yolk. It has been scientifically formulated to provide all the minerals (including selenium, a necessary mineral), vitamins and other nutritional requirements necessary to ensure your birds' health. Ultimate Balance Egg food Premium has a large particle size, is less powdery, stays fresh longer and is very palatable.

Ultimate Balance Egg food Premium contents:
