

LEAF-EATER LARGE

Complementary feed for a variety of leaf-eating animals. Very suitable for gorillas, orangutans, giant pandas, tree kangaroos and other large animals with a high fiber requirement.

Features and Benefits of DK Zoological Leaf-eater

- * Tested by several zoos
- * Designed to provide all key nutrients - when used with vegetables, fruits and browse
- * Contains stabilized vitamin C - allowing for greater shelf life
- * Does not contain wheat gliadin - to prevent undesirable allergies
- * Low available iron level - safer for animals prone to iron storage disease
- * Free of GMO ingredients

Feeding Guide

DK Zoological Leaf-eater is a complementary feed for a variety of leaf-eating animals. It is designed to be fed as a base diet depending upon needs. Should be fed as 50% of the total dry matter intake (= 15% of the fresh diet if mostly fresh products are fed beside). The energy content of this product is 286 kcal/100 g.

Product Form

Highly palatable red-coloured biscuit of 60 x 30 x 10 mm.

15 kg bags.
