

3838 tropical gold

complete mixture. Suitable E.g. for gouldian finches

feeding advice

- give fresh birdseed daily
- give unlimited grit and sharp stomach gravel; sprinkle this on the floor of the aviary or put it in a separate bowl
- make sure there's cuttlefish for the extra minerals (among which calcium). That is good for the eggs. Furthermore, the birds can sharpen their beaks on the cuttlefish
- during the breeding and moulting seasons give extra fats and proteins with egg food
- supplement now and then with some fruits, foxtail millet, or vegetables (no avocado)
- always make sure there's enough fresh drinking water

Composition:

millet Senegal, millet yellow, canaryseed, millet white, millet red, panicum red, perilla seed white, nigerseed, millet japanese, hempseed

Analytical constituents/kg

crude protein 12,7 %, crude fat 6,3 %, crude fiber 9,7 %, crude ash 3,6 %
