

5351 tropical birds basic

complete mixture. For all tropical cage and aviary birds

feeding advice

- give fresh birdseed daily
- give unlimited grit and sharp stomach gravel; sprinkle this on the floor of the aviary or put it in a separate bowl
- make sure there's cuttlefish for the extra minerals (among which calcium). That is good for the eggs. Furthermore, the birds can sharpen their beaks on the cuttlefish
- during the breeding and moulting seasons give extra fats and proteins with egg food
- supplement now and then with some fruits, foxtail millet, or vegetables (no avocado)
- always make sure there's enough fresh drinking water

Composition:

millet La Plata, millet Senegal, millet yellow, millet white, canaryseed, millet red, linseeds

Analytical constituents/kg

crude protein 11,9 %, crude fat 4,9 %, crude fiber 10,3 %, crude ash 3,3 %
