

9111 lovebird seed*

complete mixture. For all lovebirds. *This product is also available without hempseed for export purposes.

feeding advice

- give fresh birdseed daily
- give unlimited grit and sharp stomach gravel; sprinkle this on the floor of the aviary or put it in a separate bowl
- make sure there's cuttlefish for the extra minerals (among which calcium). That is good for the eggs. Furthermore, the birds can sharpen their beaks on the cuttlefish
- during the breeding and moulting seasons give extra fats and proteins with egg food
- supplement now and then with some fruits, leaf buds, or vegetables (no avocado)
- always make sure there's enough fresh drinking water

Composition:

millet yellow, canaryseed, oats peeled, wheat pigeon, linseeds, safflowerseed, millet red, millet white, buckwheat, dari white, hempseed, nigerseed, paddyrice, dari red

Analytical constituents/kg

crude protein 12,3 %, crude fat 8,5 %, crude fiber 8,7 %, crude ash 3,0 %
