

5318 parrot fruit and nuts*

complete mixture. For parrots, especially species from South and Middle America, such as macaws and amazon parrots. *This product is also available without hempseed for export purposes.

feeding advice

- give fresh birdseed daily
- give unlimited grit and sharp stomach gravel; sprinkle this on the floor of the aviary or put it in a separate bowl
- make sure there's cuttlefish for the extra minerals (among which calcium). That is good for the eggs. Furthermore, the birds can sharpen their beaks on the cuttlefish
- during the breeding and moulting seasons give extra fats and proteins with egg food
- supplement now and then with fruits, willow twigs, leaf buds, or vegetables (no avocado)
- always make sure there's enough fresh drinking water

Composition:

Sunflowerseed white, safflowerseed, sunflowerseed striped small, oats, paddyrice, buckwheat, cucumber seeds, millet yellow, sunflowerseed striped medium, dari red, dari white, peasflakes, hempseed, mungbeans, sunflowerseed peeled, cedarnuts, banana slices, pine apple, papaya, petwheat, groundnuts peeled lightskin, oats peeled, pumpkin seed, rosehips, raisins, carrot flakes
