

5341 budgerigars basic

complete mixture. For all parakeets

feeding advice

- give fresh birdseed daily
- give unlimited grit and sharp stomach gravel; sprinkle this on the floor of the aviary or put it in a separate bowl
- make sure there's cuttlefish for the extra minerals (among which calcium). That is good for the eggs. Furthermore, the birds can sharpen their beaks on the cuttlefish
- during the breeding and moulting seasons give extra fats and proteins with egg food
- supplement now and then with some herbs, foxtail millet, fruits, or vegetables (no avocado)
- always make sure there's enough fresh drinking water

Composition:

millet yellow, millet white, canaryseed, oats peeled, millet red

Analytical constituents/kg

crude protein 11,8 %, crude fat 4,4 %, crude fiber 9,8 %, crude ash 3,3 %
