

5315 european goldfinch and siskin extra*

complete mixture with thistle seed and a lot of niger seed. For goldfinches and siskins. *This product is also available without hempseed for export purposes.

feeding advice

- give fresh birdseed daily
- give unlimited grit and sharp stomach gravel; sprinkle this on the floor of the aviary or put it in a separate bowl
- make sure there's cuttlefish for the extra minerals (among which calcium). That is good for the eggs. Furthermore, the birds can sharpen their beaks on the cuttlefish
- during the breeding and moulting seasons give extra fats and proteins with egg food
- supplement now and then with a bit of vegetables, fruits, yellow foxtail millet or alder twigs with clods
- always make sure there's enough fresh drinking water

Composition:

nigerseed, turnip rape seed, canaryseed, perilla seed white, grass seed, linseeds, perilla seed brown, hempseed, thistle seed

Analytical constituents/kg

crude protein 17,3 %, crude fat 29,9 %, crude fiber 9,9 %, crude ash 4,0 %
