

1035 alfamix donkey

complete mix. For all donkeys from young till old

feeding advice

- give unlimited straw and possibly some structural hay
- complete the ration with 300 – 500 g 1035 alfamix donkey per day
- give more 1035 alfamix donkey if it's cold outside or they work
- double the amount of 1035 alfamix donkey with highly pregnant or lactating donkeys
- supplement for variation now and then sparsely, for example with carrot, apple or pre-soaked beet pulp, and then give at the next feeding perhaps somewhat less 1035 alfamix donkey, depending on the amount and nutritional value of the supplement
- make sure there's always fresh drinking water
