AKWAVIT

AKWAVIT Dolphin

Product code: 692506

Feed supplement specially developed for dolphins. It contains a balanced level of vitamins and minerals. Currently it does not contain vitamin A. This is because research has shown that levels of vitamin A in the blood are naturally lower in the wild than in captivity. Vitamin E has been reduced to avoid any overdose. Thiamine vitamin B1 is likewise sufficient for lactating dolphins. In addition, it contains magnesium needed to develop healthy bones and to play its role in the muscular system and in the nervous system.

The tablets have a dividing line, making it easy to provide a half dose.

Complementary feed especially developed for dolphins.

Directions for use:

Feed the animals by placing the tablet into the feed fish.

Body weight	0 – 75 kg:	½ tablet per day
Body weight	75 – 150 kg:	1 tablet per day
Body weight	150 – 300 kg:	2 tablets per day
Body weight	300 – 500 kg:	3 tablets per day
Body weight	> 500 kg:	4 tablets per day

Analyses per tablet:

Magnesium

50 mg
