HEALTHY FIBRE MIX

Healthy Fibre Mix is high in fibre, Linamix® and vitamins and extremely low in sugar and starch. Formulated without grains, this mix is particularly suitable for horses sensitive to sugar or horses with digestion and muscle problems. This mix consists of ingredients such as lucerne, red beet flakes and chicory pulp. The chicory pulp contains inulin and therefore has a prebiotic effect.

This mix contains ingredients of superior quality:

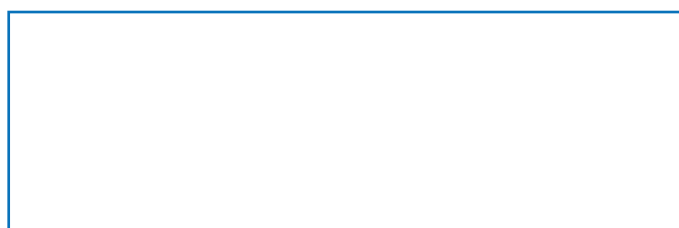

- **Linseed** is a source of omega-3 fatty acids, which greatly benefit the health of the horse.
- **Lucerne chaff** is a leguminous crop that is dried and chopped. These long, high-quality fibres stimulate saliva formation.
- **Chicory** is a natural source of inulin. It promotes the development of healthy intestinal flora and has a prebiotic effect.
- **Red beet flakes** are rich in vitamin B (folic acid), potassium, phosphorus and magnesium.
- **Antioxidants** The intake of vitamin E and selenium supports muscle regeneration after exercise.
- **EquiSweet** is healthy sugar syrup that ensures the progressive and gradual release of energy.

INSTRUCTIONS:

Use **0.5 g to 1.0 g per 100 kg** of live weight per day To be adjusted depending on the breed, intensity of exercise and quality of roughage.

Always supplement the concentrated feed with high-quality roughage without restriction. The horse must always have access to fresh water. Always store the feed in a cool, dry and dark place.

DISTRIBUTOR

COMPOSITION:

Lucerne, Extruded linseed, Soybean hulls, Dried beet pulp, Rape-seed meal, Grass meal, Toasted soybeans, Peas, Sugar cane molasses, Lucerne stems, Peas, Sugar cane molasses, Isomaltulose molasses, Potato starch, Soybean oil, Sodium chloride, Calcium carbonate, Dried beet pieces, Monocalcium phosphate, Linseed flakes, Linseed, Magnesium oxide, Chicory root, Sodium bicarbonate, Linseed oil

Analytical constituents:

Crude protein	15%
Crude fat	8%
Crude fibre	19%
Crude ash	10.3%
Starch	5%
Sugars	7%
Calcium	1.55%
Phosphorous	0.41%
Magnesium	0.42%
Sodium	0.5%

Calculated values (/kg):

Horse Forage Units (UFC)	0.77
Digestible nitrogenous matter / degradable crude protein (Madc/MPBd-c) 10%	
Total energy value (VRE)	10%
Digestible energy-horses (DE-p)	11.6
Energy value horses (EW pa)	0.77

Nutritional additives (/kg):

Lysine	7.5 g/kg
Lysine standard (4% CP)	6 g/kg
Methionine	2.5 g/kg
Omega 6	42 g
Omega 3	24 g
Vitamin A	15,000 IU
Vitamin D3	2,225 IU
Vitamin E (All-rac-alpha-tocopheryl acetate)	460 IU
Biotin	480 µg
E4 Copper (II) sulphate	30 mg
E1 Iron	59 mg
3b503 Manganese (II) sulphate	57 mg
3b605 Zinc(II) sulphate	119 mg
3b304 Cobalt (Coated granulated cobalt(II) carbonate)	0.5 mg
3b201 Iodine (Potassium iodide)	0.7 mg
3b801 Selenium (Sodium selenite)	0.4 mg
3b815 Selenium (L-selenomethionine)	0.2 mg
