

WISBROEK CARNIPOWER

SUITABLE FOR:

Carnivores such as birds of prey, owls, cats, bears and reptiles.

Wisbroek CarniPower is a supplement for carnivores, such as birds of prey, owls, cats, bears and reptiles. It is a tasty powder that is added to prey animals, carcasses, meat and fish. Our CarniPower brings a prey to life for a carnivore.

HOW DOES IT WORK?

The diversity of ingredients provides your pet with all the necessary nutrients to keep it in good condition. The balanced recipe contains the right amount and composition of vitamins, natural antioxidants and organic nutrients to support the immune system. Fat metabolism is supported by the addition of, for example, choline.

ADVICE FOR USE

We recommend spreading Wisbroek CarniPower on the prey, meat or fish. The correct amount is 10 grams of CarniPower per kilogram of food. This is easy to weigh with the supplied measuring spoon: a finished measuring spoon contains 10 grams of Wisbroek CarniPower.

WHO IS IT SUITABLE FOR?

Wisbroek CarniPower is suitable for carnivores such as birds of prey, owls, cats, bears and reptiles.

Order direct from our website

Supports the immune system
