

WISBROEK PARROT FRUIT BLEND DAILY | SMALL & LARGE

SUITABLE FOR:

SMALL

Lovebirds, pyrrhura, caique, ring-necked parakeet and other small fruit-eating birds.

LARGE

Electus, macaw, amazon, caique, pyrrhura, sun parakeet and other (middle) large fruit-eating birds.

Wisbroek Parrot Fruit Blend Daily is a complete daily food for fruit-eating parrots and Psittaciformes. During the unique extrusion process, the high diversity of raw materials under high pressure to a delicious crunchy pellet in the sizes Small and Large formed. Each pellet contains all the nutrients your bird needs to stay in good condition. Besides the pellets, no extra additions are needed.

Our ingredients are an excellent match to the diet of parrots in the wild. The pellets are therefore prepared with real fruit, such as papaya, cranberries and apple. This balanced recipe ensures optimal digestion by using organic nutrients. We use raw materials such as canthaxanthin, spirulina and lutein for our pellet. These contain natural carotenoids, which are body's own substances that birds in the wild would also eat and ensure that your bird's true natural colors come out.

In addition to all these healthy nutrients, all the necessary fatty acids, amino acids, vitamins, minerals and other essential nutrients are also derived from animal and plant protein sources of only the highest quality. These ingredients help to support your bird's immune system, among other things.
