

WISBROEK PARROT NUT BLEND BOOSTER

SUITABLE FOR:

Seed- and nut eating birds

Such as: african grey parrot, macaw, cockatoo, senegal parrot, poicephalus and other (middle) large seed- an nut eating birds

Wisbroek Parrot Nut Blend Booster is a complete daily food for nut- and seed-eating parrots and Psittaciformes that need an extra energy boost. The higher fat and protein content is for example needed during the breeding season or to build up extra fat reserves for the winter period. This is also very suitable for sick and weakened birds.

During the unique extrusion process, the high diversity of raw materials is formed under high pressure into deliciously crunchy pellets. Each pellet contains all the nutrients your bird needs to stay in good condition. Besides the pellets, no extra additions to the food are necessary. Our ingredients are consistent with the diet of parrots in the wild. The pellets are therefore prepared with real seeds and nuts, such as sunflower seeds, katyang seeds, walnuts and linseed.

This balanced recipe ensures optimal digestion by using organic nutrients. We use raw materials such as canthaxanthin, alfalfa and lutein for our pellet. These contain natural carotenoids, which are bodily substances that birds in the wild would also eat and ensure that your bird's true natural colors come out.

In addition to all these healthy nutrients, all the necessary fatty acids, amino acids, vitamins, minerals and other essential nutrients are also derived from animal and plant protein sources of only the highest quality. These ingredients help to support your bird's immune system, among other things.

Order direct from our website

FEEDING ADVICE

Wisbroek Parrot Nut Blend Booster is a complete daily food. Due to the diversity, the nutritional values for all nut- and seed-eating parrots and Psittaciformes are covered. That is all your bird needs. If you want advice on how to offer your parrot species an even more varied diet with Wisbroek Parrot food? Then go to www.wisbroek.com how you can receive a free tailor-made nutritional advice.

SWITCHING ADVICE

Is Wisbroek pellet food completely new to your bird? Please visit www.wisbroek.com for our helpful switching advice. By making the switch gradually, your bird gets used to the pellets and still gets all the nutrients he needs.

ANALYTICAL CONSTITUENTS

Crude protein	22%
Crude fat	13%

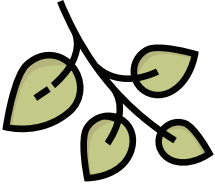

Store in a cool, dry and dark place

Make sure the bird always has fresh water available.

Not suitable for human consumption, for animals only.
