

**June 2023**

We are excited to announce that Mazuri® Exotic Animal Nutrition products are now available in the UK and EU. You now have access to products that zoos and aquariums from across the globe confidently feed to animals under managed care.

On 20 February 2023, PMI Nutrition International, owner of Mazuri® Exotic Animal Nutrition headquartered in the United States, purchased the Mazuri Zoo Foods (Dietex International) trademark and related intellectual property. With this purchase, products from Dietex in the UK and NutraZu from PMI Nutrition are no longer available.

For more than 30 years, PMI Nutrition International, has been precisely manufacturing Mazuri® complete feeds, supplements, and tablets at the drug-free specialty facility in Richmond, Indiana. Since 2015, the plant has been Food Safety System Certified 22000 (FSSC 22000), a rigorous quality certification program. Mazuri® Exotic Animal Nutrition sells and distributes exotic animal feed solutions in more than 30 countries in North America, LATAM, APAC, Oceania, the Middle East...and now the United Kingdom and European Union.

We look forward to helping you with this transition and offering products from the United States that have been trusted by zoo professionals, breeders, and exotic animal enthusiasts since 1989. For more information, visit [www.mazuri.com](http://www.mazuri.com) or contact us directly to learn about the Mazuri® international product portfolio.
